## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Levine et al in view of Johnson et al and (Dictionary reference to Friedman et al).

Levine et al discloses a method for trading financial products over a computer network. There is received seller information from a first client where at least some of the seller information comprises due diligence information capable of fulfilling at least a portion of a request for due diligence on a financial product (col 15, lines 6-10). The seller information is stored in a database and a second client is provided with an opportunity to obtain the due diligence information on behalf of a potential buyer of the financial product (col 15, lines 11-20).

Levine et al does not explicitly disclose:

storing a bid for the financial product from the second client in the database, if it can be shown the second client has obtained the due diligence information; and,

computing a price for the financial product offered for sale, the price based in part on the due diligence information.

Johnson et al discloses storing a bid for the financial product from the second client in the database (para 0148), and computing a price for the financial product offered for sale, the price based in part on the due diligence information (para 0111).

It would have been obvious to one with ordinary skill in the art to include storing a bid for the financial product from the second client in the database, if it can be shown the second client has obtained the due diligence information because Johnson et al teaches bid comparisons and due diligence are related and therefore important (para 0148) and the dictionary reference discloses due diligence definitions that disclose links between clients (page121-122).

It would have been obvious to one with ordinary skill in the art to include computing a price for the financial product offered for sale, the price based in part on the due diligence information because Johnson et al teaches valuation and due diligence are linked and required for financial product trading (para 0111).

***Response to Arguments***

3. Applicant's arguments with respect to claims of record have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***
